

## Key Investor Information

This document provides key information for investors about this collective investment of capital. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this collective investment. You are advised to read it so that you can make an informed decision about whether to invest.

### Pictet - Robotics

(the "Compartment") is a compartment of Pictet (the "Fund").

### P EUR (the "Share Class") - ISIN LU1279334210

The Fund is managed by Pictet Asset Management (Europe) S.A. (the "Management Company"), part of the Pictet group

#### Objectives and investment policy

##### OBJECTIVE

To increase the value of your investment.

##### REFERENCE INDEX

MSCI ACWI (USD). Used for performance objective and performance measurement.

##### PORTFOLIO ASSETS

The Compartment mainly invests in equities of companies that contribute to, or profit from, developments in robotics and enabling technologies. The Compartment may invest worldwide, including in emerging markets and Mainland China.

##### DERIVATIVES AND STRUCTURED PRODUCTS

The Compartment may use derivatives to reduce various risks (hedging) and for efficient portfolio management, and may use structured products to gain exposure to portfolio assets.

##### COMPARTMENT CURRENCY

USD

##### INVESTMENT PROCESS

In actively managing the Compartment, the investment manager uses a combination of market and fundamental company analysis to select securities that it believes offer favourable growth prospects at a reasonable price. The portfolio composition is not constrained relative to the benchmark, so the similarity of the Compartment's performance to that of the benchmark may vary.

##### Terms to understand

**Derivatives** Financial instruments whose value is linked to one or more rates, indexes, share prices or other values.

**Emerging markets** Markets of less economically developed nations, such as some nations in Asia, Africa, Eastern Europe and Latin America.

**Equities** Securities that represent a share in the business results of a company.

**Structured products** Securities similar to derivatives, but with defined risk or performance characteristics.

##### Other characteristics

Designed for investors who understand the risks of this Compartment and plan to invest for 5 year(s) or more. This is an accumulation share class, meaning any income earned is retained in the share price. Orders to buy, switch or redeem shares are ordinarily processed on any day that is a full bank business day in Luxembourg.

#### Risk and reward profile

The Share Class is assigned to this risk category because of the price variations resulting from its currency and the nature of the Compartment's investments and strategy. The risk category shown is based on historical data and may not be a reliable indication for the future risk profile of the Share Class. It is not a target or a guarantee and may change over time. The lowest category does not mean a risk-free investment. The Compartment offers no capital guarantee or asset protection measures. The Compartment may be exposed to the following risks which are not adequately captured by the synthetic risk indicator and may negatively impact its value:

- **Financial Derivatives risk:** the leverage resulting from derivatives amplifies losses in certain market conditions.
- **Counterparty risk:** losses occur when a counterparty does not honour its obligations related to contracts such as over-the-counter derivatives.
- **Investments in emerging markets** are generally more sensitive to risk events, such as changes in the economic, political, fiscal and legal environment, as well as fraud.
- **Investments in Mainland China** may be subject to capital restrictions and trading quotas (e.g. QFII and RQFII regimes). The Compartment may encounter difficulties or delays in enforcing its rights in the event of disputes.
- **Chinese "Stock Connect"** trading programmes may be subject to additional risks related to ownership rights, clearing & settlement, trading quotas and operational issues.
- **Operational risk:** losses resulting from human errors, system failures, incorrect valuation and safekeeping of assets.

Further information can be found in the prospectus.

## Charges

The charges you pay are used to cover the costs of running the Compartment, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

The **entry, conversion and exit charges** shown are maximum figures. In some cases you may pay less. You can find this out from your financial adviser or fund distributor.

The **ongoing charges** figure is based on expenses for the period ending on 31 December 2019. This figure may vary from year to year. It excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Compartment when buying or selling units/shares in another collective investment undertaking.

**For more information on charges, please refer to the "Fund Expenses" section of the Fund's prospectus available on [assetmanagement.pictet](http://assetmanagement.pictet)**

### One-off charges deducted before or after you invest

Entry charge (in favour of the distributor)	Up to 5.00%
Exit charge (in favour of the distributor)	Up to 3.00%
Conversion charge (in favour of the distributor)	Up to 2.00%

This is the maximum figure that might be taken out of your capital before it is invested and before the proceeds of your investment are paid out.

### Charges taken from the Share Class over a year

Ongoing charges	1.99%
-----------------	-------

### Charges taken from the Share Class under certain specific conditions

Performance fee	No performance fee
-----------------	--------------------

## Past performance

The Share Class was launched on 07 October 2015 (Compartment on 07 October 2015). Past performance is not a guide to future performance. The chart shows the Share Class' performance after payment of all fees, including portfolio transaction fees against the historical performance of the benchmark(s) stated below. Past performance has been calculated in EUR.

The Compartment is actively managed and does not intend to track the Msci Ac World Euro

## Practical information
