

## Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

## Templeton Growth Fund

**Class A (acc) • ISIN GB0002733748** • A sub-fund of Franklin Templeton Funds  
The management company is Franklin Templeton Fund Management Limited

### Objectives and Investment Policy

Templeton Growth Fund (the “Fund”) aims to grow in value by more than the MSCI All Country World Index (the “**Index**”) over a five-year period after all fees and costs are deducted.

The Fund invests at least two thirds (but typically significantly more) in the shares of a range of companies of any size or industry anywhere in the world.

The Fund’s managers use research and experience to identify companies that show more potential to deliver sustainable growth over the long-term (5 years) than their market price would suggest. This includes how growth may be affected by environmental, social or governance risks and opportunities.

The Fund’s portfolio has some overlap with but does not intend to replicate the Index.

It seeks to manage risk by avoiding any unintentional emphasis on a single company, industry or country.

The Fund may also invest a proportion of its portfolio in other transferable securities including:

- fixed interest and other debt related securities;
- other asset classes

The Fund can use derivatives for efficient portfolio management (that is managing the Fund in a way that is designed to reduce risk or cost and/or generate extra income or growth)

You may request the sale of your shares on any UK business day.

The income received from the Fund’s investments is accumulated and included in the value of the shares.

For further information on the Objectives and Investment Policy of the Fund, please refer to the “Investment Objectives and Policies of the Funds” section of the current prospectus of Franklin Templeton Funds.

#### Terms to Understand

**Equity securities:** Securities that represent an ownership stake in a company.

### Risk and Reward Profile

#### What does this indicator mean and what are its limits?

This indicator is designed to provide you with a measure of the price movement of this share class based on historical behavior.

Historical data may not be a reliable indication of the future risk profile of the Fund. The category shown is not guaranteed to remain unchanged and may shift over time.

The lowest category does not mean risk free.

#### Why is the Fund in this specific category?

The Fund invests mainly in equity and equity-related securities of companies of any size located in any country. Such securities have historically been subject to significant price movements that may occur suddenly due to market or company-specific factors. As a result, the performance of the Fund can fluctuate considerably over time.

#### Risks materially relevant not adequately captured by the indicator:

**Currency risk:** the risk of loss arising from exchange-rate fluctuations or due to exchange control regulations.

**Emerging markets risk:** the risk related to investing in countries that have less developed political, economic, legal and regulatory systems, and that may be impacted by political/economic instability, lack of liquidity or transparency, or safekeeping issues.

For a full discussion of all the risks applicable to this Fund, please refer to the “Risk Factors” section of the current prospectus of Franklin Templeton Funds.
