

KEY INVESTOR INFORMATION

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

THREADNEEDLE (LUX) - GLOBAL SMALLER COMPANIES (THE "FUND")

Class AE (EUR Accumulation Shares) LU0570870567, a sub-fund of Threadneedle (Lux) (the "SICAV"), regulated by the CSSF.

The management company of the SICAV is Threadneedle Management Luxembourg S.A. (the "Management Company") (part of the Columbia and Threadneedle group of companies).

Objectives and Investment Policy

The aim of the Fund is to grow the amount you invested.

The Fund invests at least two-thirds of its assets in shares of smaller companies worldwide. The smaller companies that the Fund invests in will typically be companies no bigger than the largest company included in the MSCI World Small Cap Index.

The Fund may also invest in asset classes and instruments different from those stated above.

Income from investments in the Fund will be added to the value of your shares.

You can buy or sell shares in the Fund on any day which is a business day in Luxembourg unless the directors have decided that insufficient markets are open. Such days are published on columbiathreadneedle.com. You can find more detail on the investment objective and policy of the Fund in the section of the prospectus with the heading "Investment Objectives and Policies".

The fund manager will make reference to the MSCI The World Small Cap index as part of the investment process. The Fund does not aim to track the index, and will not hold every security in the index and in theory may hold none. The fund manager may also invest in securities that are not in the index. The MSCI The World Small Cap index is also considered as part of Columbia Threadneedle's investment risk monitoring process, to ensure the overall level of risk taken by the fund manager is not inconsistent with the index.

Risk and Reward Profile

The Risk and Reward Indicator table demonstrates where the Fund ranks in terms of its potential risk and reward. The higher the rank the greater the potential reward but the greater the risk of losing money. It is based on past data, may change over time and may not be a reliable indication of the future risk profile of the Fund. The shaded area in the table below shows the Fund's ranking on the Risk and Reward Indicator.

Lower Risk, Typically lower rewards

Higher Risk, Typically higher rewards

- The Fund is rated 5 because historically it has shown a medium to high level of volatility (how much the value of the Fund goes up and down).
- The lowest category does not mean a risk-free investment.
- The value of investments can fall as well as rise and investors might not get back the sum originally invested.
- Where investments are in assets that are denominated in multiple currencies, or currencies other than your own, changes in exchange rates may affect the value of the investments.
- The Fund holds assets which could prove difficult to sell. The Fund may have to lower the selling price, sell other investments or forego more appealing investment opportunities.
- The Fund may invest in derivatives with the aim of reducing risk or minimising the cost of transactions. Such derivative transactions may benefit or negatively affect the performance of the Fund. The Manager does not intend that such use of derivatives will affect the overall risk profile of the Fund.
- The risks currently identified as applying to the Fund are set out in the "Risk Factors" section of the prospectus.

Charges

The charges you pay are used to pay the costs of running the Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Entry Charge:	5.00%
Exit Charge:	0.00%

These are the maximum charges that we might take out of your money before it is invested. In some cases, you might pay less and you should speak to your financial adviser about this.

Charges taken from the fund over a year

Ongoing Charges:	1.80%
------------------	-------

Charges taken from the fund under specific conditions

Performance Fee:	NONE
------------------	------

Switching charge (for switching into the Fund from another fund) 0.75%

The ongoing charges figure shown here is an estimate of the charges because the historic figures do not accurately reflect the future ongoing costs. The UCITS' annual report for each financial year will include detail on the exact charges made.
